It is a pleasure for me, on behalf of the Faculty and Students of Edwardsville High School, to welcome YOU to the TIGERS' home basketball games. We hope you enjoy the game, cheer for your favorite team, and leave the game convinced that competitive sports are good for the participants and the spectators.

We, in Edwardsville, feel that we are steeped in fine basketball background as we know our visitors are. We hope both of our groups realize that both teams will not win by the score, but that both teams and crowds can be winners because of the experience that we both share here tonight.

We would encourage both crowds to cheer FOR their respective teams, NOT AGAINST the other.

May our communities continue to be proud of our boys and girls and proud of the image that we put before them, and may we all walk out after the game with heads up.

Joe E. Lucco
