

INTER-OFFICE COMMUNICATION

Location Columbus, Mississippi-Sept. 9, 1944 19

To Mrs. D. H. Mudge,
Edwardsville, Ills.,

Dept.

My dearest Louise-

I have been sure enough busy ever since my return from Missouri and Illinois, not only because, everything had been piling up during my absence, but somethings out of the ordinary run came up, hence the delay in writing. Marie sent me your note, in ~~which~~ which you quoted the message from Dick, Junior. What a relief it must have been to you to get the direct word, and I am so happy for you and Dick. Marie enjoyed her stay with you all, and I did mine, although it was all too brief a visit. I do hope that some day, when the clouds of war have passed that we can all get together for a real reunion of the families.

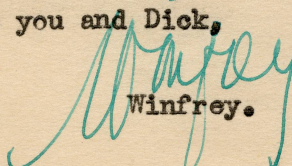

At long last, the weather down here is becoming livable, after some extremely hot weather, in fact last Sunday and Monday were, to quote Father Daddy- "scorchers"

One night this week, I saw "Adventures of Mark Twain" with Frederic March portraying Mark-It was a spendid picture, and the Mississippi River scenes were especially interesting to me, the sequences showing Mark as a pilot were really good.

Last night, I went to see the local high school play football, the opener of the season. I am always glad to see the football season start as it is the harbinger of fall, which means an end of hot weather.

Write when you can.

Love to you and Dick,

Winfrey.
