 Oxford Series Gazebos by POLIGON retain a traditional flavor while exploiting the advantages of tubular steel construction. The larger gazebos, the GOX28, GOX36, and the GOX44, have double tiered roofs at an 8/12 pitch, topped off with a 30" vented cupola.  Overhead ornamentation on all six sides, and handrails on five sides are standard with a diamond pattern and pickets 6" on center.

 Optional ornamental railing packages, available for all gazebo models, are shown below.
